

Beyond Recovery

IT-Lifeline works in close partnership with TierPoint, a leading carrier-class and carrier-neutral data center located adjacent to our Liberty Lake, Washington headquarters. Available data center capacity features multiple, reliable on-ramps and off-ramp—via BGP-4—to ensure your business remains fully connected. It's top drawer data center recovery, but it's far more than that.

With IT-Lifeline customers access not only a leading edge data center facility, but to a leading edge team skilled at all aspects of data center recovery. With IT-Lifeline, data and application recovery goes far beyond traditional co-location.

Datacenter Recovery Solution Overview
