

Restoration is the point

It's good to know that, although we're quiet in the background, our data protection capabilities are ready and able to bring your customer data and business applications back at the first sign of trouble. The value we bring is beyond our ability to back up your critical information and processes; it's the tools we use and our skill at restoring you to productivity from end to end that really counts.

And with IT-Lifeline, you don't have to be a commercial powerhouse to be protected like one. We faithfully vault and archive, and we enable and assist restorations for businesses of every size and industry, from the entrepreneur with a single server and 100 gigabytes of data, to an established concern with hundreds of servers and terabytes of information.

IT-Lifeline's Business Recovery Center provides firms across business segments with a full range of IT continuity solutions—from plans to action—that ensure full recovery from natural or man-caused calamity, system failure, or unlawful or accidental intrusion.

Our range of planning solutions—Business Continuity Planning, Business Pandemic Planning, and Business Life Safety Planning—can all include Data Vaulting, Archiving, and Restoration approach recommendation that's right for your business.
